Your Honor

Fact 1: Microsoft Corporation has broken no laws.

Fact 2: This frivolous lawsuit should never have been entertained by any court.

Fact 3: I resent the government's belief that it has to force it's "protection" on me when I neither want nor need it.

Toss this litigation out into the street where it belongs.

Stop punishing businesses and individuals for their hard work and success.

Stop allowing (empowering?) failed businesses to set the rules for the markets in which they couldn't compete in the first place.

Thank you.

Jon W. Bagby
